

WEEK	CAMP	INFORMATION
<b>Week 1:</b> 6/25-6/29	<b>FARM SCIENCE</b> <b>Garden Warriors</b> Discover the Wild Ways of Nature	Jump into our integrated garden/farm and learn about all the hardworking birds, bees, bugs and flowers, plants and great ecosystem they live in to thrive and grow. We'll be exploring science through the garden from the ground up (soil pun intended!) and the food it creates and what it takes to grow and raise healthy food!
<b>Week 2:</b> 7/2-7/6	<b>KID ECONOMY</b> <b>Create and Make</b> Tiny Farmers Market	We've created a safe, creative and fun space where kids can adventure a micro small business owner world on the farm! We're providing everything the Tiny Maker will need to make a number of different art and craft projects that "Farm Cash" will be available to use for art/craft purchase on the final day of camp for showcasing at the Tiny Farmers Market.
<b>Week 3:</b> 7/9- 7/13	<b>WATER WIZ</b> Learn the Powers of Water!	This camp will explore the wonders of water! We'll learn about where water comes from, why it's important and what we can do to flow with it in life. We'll learn how to harness and harvest it for power and life and explore stream headwaters.
<b>Week 4:</b> 7/16-7/20	<b>BUILD &amp; GROW</b> Tiny Garden Creations	This hand's on camp will give kids a way to learn more about functional gardens. Campers will explore soil, seeds and bugs and the bees as it relates to creating and maintaining a mini garden they get to make and take home!
<b>Week 5:</b> 7/23-7/27	<b>BUG PARADISE</b> Learn about insects and their Ecosystem	Learn about tiny worlds and ecosystems of insects. Become a bug detective and discover the homes of the teeny tiny world of bugs and insects. Build a bug paradise for the farm and one for your home!
<b>Week 6:</b> 7/30-8/3	<b>SUN ADVENTURES</b> Adventures in Solar Power	Farm fun with the power of the sun! Campers will study the importance of the sunshine as it relates to a variety of life on earth and harness its energy for growing and cooking experiments. This science based hands-on learning and building camp explores technology and building solutions!
<b>Week 7:</b> 8/6 - 8/10	<b>KID ECONOMY</b>	See Above
<b>Week 8:</b> 8/13-8/17	<b>FARM SCIENCE</b>	See Above
<b>Week 9:</b> 8/20-8/24	<b>KID ECONOMY</b>	See Above
